HERE COMES SCOTTY AGAIN!

Offering

**HEMEROCALLIS, TREE PEONIES,
AZALEAS and RHODODENDRON,
BROAD-LEAVED EVERGREENS,
ORNAMENTAL and
FLOWERING SHRUBS**

**SPRING — FALL
1950**

METHOD OF SHIPPING: All nursery stock is shipped from our Nurseries by the most practical and inexpensive method, unless otherwise requested.

TERMS: Cash with order.

PRICES: F. O. B. Nursery unless otherwise specified.

CLAIMS AND REPLACEMENTS: Nothing but first class stock, carefully packed, will be shipped. With ordinary care good results should be assured. Once stock has left our hands and is out of our control, we cannot assume further responsibility, and no claim for damage in transit, replacement, shortage or errors will be entertained unless made within ten days of receipt of same. In the event of damage in transit, contact transportation company involved and file claim immediately.

INSPECTION: Our nurseries are free from disease. A State Entomologist Certificate is attached to every shipment.

GUARANTEED: Our stock is guaranteed to be healthy, true to name and of size and quality represented. While we are very careful to keep our varieties true to name, in the event they should prove otherwise, we cannot be held responsible for more than the amount received for the plant.

A MESSAGE FROM SCOTTY

Hello Everybody! Here I am again and I think when you've looked over this offering, you'll agree that there are some mighty interesting items listed—and the prices are certainly reasonable. Even the Scotsman who didn't want to send his boy to school because he had to pay attention would appreciate these prices!

One new feature we've added this time is the Home Nursery. Our place is on the mountain about 12 miles from Chattanooga, and often when visitors come to the nursery, it is quite a nice little outing for them, so they wander around the place, looking in all the cold frames and greenhouse, seeing the different steps in propagation. All are fascinated by the little plants they find in the cold frames, and many want to take some home with them. There seems to be such an interest in growing these "babies," as they call them, that we are offering them to the general public as well as local trade.

You will also notice that we've increased the daylily list considerably. We do think we've a splendid lot of day-lilies, and we cordially invite visitors to come to see them in bloom. The usual varieties are at their best June and July, and the late-blooming McDade varieties are at their height late July and August. We're very proud to be able to offer Mr. Elmer A. Claar's "The Doctor" and Mr. William T. Wood's "Bill Wood." These two fine reds have received much favorable comment. Dr. Phillip Corliss of Somerton, Arizona spent the entire summer last year visiting daylily gardens all over the country, taking pictures and evaluating the things he saw. He considered Bill Wood and The Doctor among the very best of the deep reds. Speaking of pictures, Dr. Corliss no doubt has the finest collection of color pictures of hemerocallis to be had. So many people have heard of his kodachrome collection that he has gotten together several large collections which he sends out for a rental fee. If interested, we suggest you write him direct. Dr. Phillip G. Corliss, P. O. Box 68, Somerton, Arizona.

Transportation rates seem to be going up and up, and the amount of money left for the plants is going down and down, so you will notice that in most cases we have listed only small sized plants that can be shipped inexpensively. When the plants are large, they require heavy balls and packing cases. However, if you are interested in large specimens, please inquire.

Everybody is working on artistic flower arrangements these days, and the trend seems to be toward plants with foliage which lends itself well to flower arrangements. We are propagating with this in mind, and in my next message I hope to be able to suggest to you just what plants are best suited for arrangements and give suggestions as to combinations.

I'll be writing you again, so goodbye for now—and let us be hearing from you!

Scotty

HEMEROCALLIS

Commonly called daylilies, these plants are easily grown and most effective in the garden. They are quite versatile, lending themselves to perennial border plantings, naturalizing in partly shaded woodlands, along pools or streams, or in the foreground of the shrubbery border. Almost any climate is suitable. They demand neither full sun nor shade, but seem to thrive in any atmosphere. They come in a multitude of exciting colors; from palest yellows to deep glowing oranges, with rich shades of golden yellows, buff, apricot, salmon-rose, pink, rose, bronze, copper, red, maroon, purple and wine shades.

During the hot summer months when there is a dearth of bloom, these bright stars bring life and gayety to an otherwise sun-scorched garden. By planting with season in mind bloom can be had from early spring until frost.

TIME TO PLANT—They can be planted any time during the year when the ground is not frozen, but we find it best to plant them in the spring or just after they have finished blooming in late summer or early fall.

BLOOMING SEASONS—In selecting plants according to blooming season, please keep in mind that flowers that bloom in July here (Tennessee), would bloom in August in the North and Midwest (Iowa), and we are two weeks ahead of Indiana. We are about a month later than the Deep South (New Orleans). In order to get the best results with daylilies that repeat in the late summer or early autumn, we suggest fertilizing, cultivating and watering during dry seasons, especially in the South.

BONUS—We have discontinued the practice of offering starred varieties free as a bonus when you purchase daylilies amounting to \$10.00 or more. In place of this, we have listed all varieties at the very lowest price possible that all, irrespective of amount of purchase, may benefit. This saving will also enable you to choose additional plants you would like instead of being limited to starred varieties.

TERMS—Cash with order, check, draft or money order. Postage is paid on all orders over \$3.00. Please include 25¢ postage on smaller orders.

GUARANTEE—We guarantee good, healthy stock, true to name, delivered to you in good condition, but we do not assume the responsibility for the growth in your garden.

JOIN THE HEMEROCALLIS SOCIETY

If you are not already a member of the Hemerocallis Society, we cordially invite you to become a member. The Quarterly News Letter, as well as the Yearbook published by this society are most informative and beneficial.

Send dues, \$3.00 a year, to Mrs. Pearl Sherwood, Atlantic, Iowa, or to us, and we shall be glad to enter your membership.

FREE—For each new member in Region 10 (Tennessee, Kentucky and West Virginia) we will give daylilies amounting to \$3.00.

1950 INTRODUCTIONS

ELMER A. CLAAR DAYLILIES

THE DOCTOR—36". A self of exceptionally brilliant vermilion scarlet color, distinguished by its velvety texture. Flowers 5" across, of rather full or overlapping form, but slightly recurving. Scapes slightly bending, but erect enough to be pleasing. 30 to 35 flowers. Foliage erect, recurved at tips, wide, bright green, deciduous. A well balanced plant and flower. Fall delivery.....\$25.00

ROYAL CROWN—28". The warm, rich tones in this hemerocallis give it a brilliant effect in the garden. The extremely wide petals and sepals are very much recurved and overlapping. Petals are a warm brick red shading to rusty brick red. Sepals are Ta Ming yellow underground with shadings of rusty brick red, giving it a charming bicolor effect. June-July.....\$10.00

JEAN LAFITTE—Lovely wide petals and sepals of deep, velvety garnet, veined Rose Ebony. The richly colored sepals and petals shade to Rose Ebony just before blending with Nugget Bronze at the top of the throat. Throat of cool Chartreuse green. June-July.....\$5.00

LITTLE CHERUB.—Low growing, and excellent for front of border, the flowers are full and well shaped, with segments overlapping. The color is a full clear yellow. Petals and sepals recurved.....\$5.00

CLINT McDADE DAYLILIES

FAREWELL—Very late blooming flowers with sepals of cadmium yellow sprinkled with gold dust. The wide Cerise colored petals are slightly fluted. Branching is excellent with many flowers blooming at the same time.....\$3.00

FIREGOD—Startling in color is this lovely tubular shaped flower of Canna or Antique red, with definite mid-rib on petals, which are slightly frilled at the edges. Very brilliant and showy, and late blooming.....\$3.00

LAMKIN—A very welcome addition to the garden is this late-blooming rose bicolor with faintly recurving petals of Meadow Sweet, giving the flowers a very rosy appearance. The flowers are small, well shaped, with the edges of the petals delicately fluted. Sepals are of light forsythia yellow with dusting of rose.....\$3.00

WILLIAM T. WOOD DAYLILY

BILL WOOD—44 inches. A true bright red self with yellow throat. Flowers are large and widespread, blooming midseason, and continuing to throw up bloom stalks until frost. Broad, blue-green foliage arches gracefully. Fall delivery.\$25.00

GENERAL HEMEROCALLIS LIST

AFTERGLOW (Stout)—Pale buff and pastel peach; rosy tint in throat and mid-vein of petals. Remains open evenings. June-July.	\$3.00
ALADDIN (Stout)—Strongly banded. Flowers have garnet-brown spot on petals; outer half golden yellow. Remains open evenings. Often repeats in fall. June.....	\$1.00
AMHERST (Wheeler)—A large flower of purple with milk white bands through the petals. Frilled segments. June.	\$10.00
ANNIS VICTORIA RUSSELL (Russell) — Huge flowers of canary yellow.	\$1.00
ANTOINETTE (Hayward)—Large, spreading flower, darkish purple-brown petals, orange throat. Late May-June.	\$.75
APRICOT (Yeld)—Apricot yellow—delightfully fragrant.	\$.25
AUGUST PIONEER (Stout) — Medium size chrome-orange flowers with outer half of petals delicately flushed red. July-August.	\$.50
AURANTIACA —Reddish orange	\$.50
AU REVOIR (McDade)—A small late-blooming daylily of exquisite shape and texture, the color of Golden Corn with eyes of Burmese gold. Dusted with gold-like tiny jewels. Mid-July through September.	\$1.00
AUTUMN RED (Nesmith)—An open velvety red with long season of bloom. Late June early August.	\$1.00
BAGDAD (Stout)—Large flowers with clear orange throat, with outer petals coppery red over orange veins. Mid-zone madder-brown. Fragrant. June	\$.25
BEACON FLAME (Nesmith)—Graceful flowers of clear Jasper red.	\$3.50
BELOIT (Betscher)—Orange-yellow with floriferous bloom. June-July	\$.40
BERWYN (Traub)—Medium sized flowers of bright carmine. Very showy.	\$2.00
B. F. FARR (Stout) — Fine rosy peach with attractive darker veins.	\$2.50
BICOLOR (Stout)—Petals pale red, tinged rose; sepals and throat yellow orange. Remains open evenings. June....	\$1.00
BIJOU (Stout)—Semi-dwarf. Ground color orange, overcast with rich fulvous red, darker mid-zone. Mid-June-July. Repeats in the South.	\$.40
BLACK EMPEROR (Russell)—Large dark red with deep yellow throat.	\$1.50
BLACK FALCON (Nesmith)—Extremely dark with very shallow cup of pale canary. The large open flowers are wavy at the edges.	\$5.00
BLACK PRINCE (Russell)—Deep blackish red with small cup of deep yellow. Repeats in the South.	\$2.00
BLOODROOT (Nesmith)—Brilliant and vivid flowers of velvety finish. The coloring is between scarlet and Brazil red.	\$8.00
BOLD COURTIER (Nesmith)—Broad rose petals with creamy midline. Recurved yellow sepals are slightly flushed with rose.	\$3.00
BOUTONNIERE (Stout)—Many small flowers with petals of peach rose and sepals of orange.	\$.40
BRACKEL (Wheeler)—Deep mahogany-rose flower with stitched petal pattern resembling brocade. Repeats in the South.	\$ 3.00
BRANDYWINE (Wheeler)—Large flowers of rich, deep mahogany with purple eye-zone and orange throat.....	\$3.00

BRIGAND (Nesmith) —Large full flowers of rose and mahogany with broad recurving petals and sepals.....	\$4.50
BRIGHT EVENING STAR (McDade) —Starlike flowers which open in the evening and remain open all the next day. Petals are yellow-tan with pale yellow sepals.....	\$1.00
BRIGHT MORNING (McDade) —Rust-rose petals; gold sepals, appealing star-like shape.	\$1.50
BRUNETTE (Stout) —One of the earliest reds to bloom, with small but very full flowers on much branched stems. Remains open evenings.	\$1.00
BUCKEYE (Stout) —Flowers full, clear orange with large mahogany-red eye.	\$1.00
CABALLERO (Stout) —A brilliant bicolor with petals of vermillion red and sepals and throat golden yellow.....	\$1.50
CALYPSO (Burbank) —Clear, large lemon yellow. Evening bloomer.	\$.40
CANARI (Nesmith) —Satiny-finished flowers of palest canary yellow.	\$2.50
CERISE (Wheeler) —Strikingly beautiful scarlet with rosy-crimson overflush.	\$6.00
CHAMELEON (Claar) —Small and dainty, this vivid Blaze red tones to a delightful pink with the sun. Petals and sepals charmingly recurved. Blaze red petals have wide mid-rib of Jonquil yellow, giving it a startling effect, especially in the early morning while it is still a vivid Blaze red. Sepals of Ta Ming yellow. Mid-June to July.	\$5.00
CHARIOTEER (Nesmith) —Large open flowers of Brazilian red and cadmium yellow.	\$3.00
CHARM (McDade) —Glowing apricot rose combined with rich creamy yellow.	\$1.50
CHENG TU (specie) —Flowers of blended red and yellow, deepening to intense red in the throat. July-August. \$.50	
CHEROKEE (McDade) —Late with long season of bloom. Carnelian copper petals with frilled and fluted edges. Sepals of Cadmium yellow with generous dusting of Carnelian copper.	\$1.00
CHICKAMAUGA (McDade) —Wide Titian petals, fluted and slightly recurving. Sepals of Nugget Bronze. Deep throat of Golden Glow yellow. Very large and showy. Blooms continuously, throwing up new bloom stalks just before old ones finish blooming.	\$5.00
CINNABAR (Stout) — Orange base, sprinkled cinnamon and strongly gold glistening.	\$.40
CIRCE (Stout) —Full clear yellow, medium flowers. June-July.	\$.60
CISSY GUISEPPE (Perry) —Deep rosy bronze.....	\$.35
COPPER COLONEL (Sass Bros.) —Petals are hays russet with yellow midrib, sepals are yellow heavily flushed hays russet. Greenish yellow throat.	\$6.50
CRAEMORE HENNA (Plouf) —A brilliant henna with ruby iridescence and orange throat.	\$1.00
CRAEMORE RUBY (Plouf) —Intensely red blooms with yellow-green throat blending to deep ruby red.	\$1.25
CRESSIDA (Betscher) —Deep orange with red band. \$.40	
CURLY PATE —Medium sized yellow, cup shaped flowers.	\$.75
DAILY DOUBLE (Douglas) —Of lovely coloring and texture, with double blooms most of the time. Deep yellow with deeper tones near the center.	\$5.50
DAINTY GIRL (McDade) —Petals of soft apricot-tan. Sepals golden yellow, recurving petals.	\$5.00
DANNY BOY (McDade) —Very late, medium sized red, with recurving sepals and petals of withered rose with mid-	

rib and throat of goldenrod yellow. Makes a lovely showing in the garden, and is especially valuable for its long blooming season.	\$2.50
DAUNTLESS (Stout)—Pale yellowish-orange with pastel blended midzone. Large, wide and overlapping petals. \$.75	
DAWN PLAY (Nesmith)—Velvety deep rose with golden heart.	\$4.00
DEBUTANTE (Nesmith)—A light-colored bicolor of unusual beauty. June.	\$3.00
DOLLY VARDEN (Nesmith)—Open wide full flowers. Coral pink with touch of rose on sepals and petals. June.	\$1.25
DOMINION (Stout)—Velvety reddish brown with orange throat.	\$2.00
DOROTHY McDADE (Sass)—Pure yellow with deep tubular shaped blooms. Blooms late.	\$.60
DR. STOUT (Traub)—Flowers of shapely form and pleasing orange color; brilliant sunburst. Ground color deep orange overlaid with red.	\$2.00
DUCHESS OF WINDSOR (Traub)—Cream with eye zone flushed red.	\$1.50
EASTER MORN (Wheeler) — Amaryllis-like flowers of deep, buff yellow, flushed lavender brown at the midzone.	\$5.00
EGYPTIAN RED (McDade) — A striking bicolor with Egyptian red on burnt umber petals, and sepals of yellow-green. Blooms July-August.	\$2.50
ENCHANTRESS (Cumming)—Lovely pastel coloring and fine shape. Light yellow with fulvous dusting. July	\$1.00
ETRUSCAN (Nesmith) — Small orange-colored flowers with definite markings in the center. Repeats in the South.	\$.50
FAIR MORN (Nesmith)—Beautiful sea-shell pink with deeper coloring near the throat.	\$2.50
FAITHFUL (McDade)—Apricot-red petals, golden yellow sepals, with faint lines of apricot-red on each side of sepals. July-August.	\$1.50
FESTIVAL (Stout)—Large rather narrow petaled bicolor. Sepals brownish orange yellow. Petals red with darker veins. Very showy.	\$2.00
FLORHAM—Soft, fragrant yellow. Beautifully frilled	\$.30
FRANCIS RUSSELL (Russell)—Large pale lemon yellow, petals flushed lavender.	\$3.00
FULVA ROSEA (specie)—Considered the most beautiful specie. Lustrous clear rose-pink on graceful stalks.	\$2.00
GARDEN CHARM (Bechtold)—Large, deep yellow with edges of petals fluted. Repeats.	\$3.00
GAY TROUBADOUR (Nesmith)—Bright red petals with yellow mid-stripe. Maize-yellow sepals with reddish suffusion.	\$2.50
GAYETY GIRL (McDade)—Firm, shapely bicolor. Nicely shaped petals and a prolific bloomer with blooms well spaced on firm stalks. July.	\$1.50
GEORGE KELSO (Traub)—Large blooms heavily ruffled, soft light orange suffused with bronze; sepals some lighter. June.	\$1.75
GLORIANA (Betscher)—A golden yellow with fluted edges. May-June. Repeats.	\$.50
GOLD DUST (Yeld)—Low-growing soft empire yellow. Early.	\$.35
GOLDEN DAWN (Nesmith)—Large full flowers of rich orange yellow with petals slightly ruffled and sepals recurving. Early with long season of bloom. May-June. Repeats in the South.	\$1.00

GOLDENI (Betcher) —A brilliant, waxy finished flower of orange.	\$.35
GOLDEN WEST (Sass) —Big flowers, very smooth finish with just a light ruffle. Long blooming season.	\$.75
GOLIATH (Bechtold) —Beautiful deep yellow of unusually large size. Good substance. Repeats.	\$3.00
GRACE (McDade) —Very large and outstanding in coloring. Brilliant orange-red petals with golden orange sepals with faint overcast of orange.	\$3.50
GRANADA (Traub) — A wide-petaled deep mahogany. June-July.	\$1.00
HAILE SELASSIE (Wheeler) — Large, wide-petaled, extremely dark toned flowers; purple-orange with orange throat.	\$5.00
HANKOW (specie) —Flowers are large, rich, yellowish orange with gold scarlet eye-zone in petals. August-September.	\$.75
HAROLD PATTERSON (McDade) —Mauve rose petals with deeper tone in the throat contrasting beautifully with the apricot yellow sepals. Unusually tall and vigorous. Long season of bloom. Late June-August.....	\$3.50
HAZEL SAWYER (Wheeler) —Medium large flowers of laurel pink with yellow throat.	\$2.50
HEATHER ROSE (Nesmith) —A soft pink.	\$2.50
HER GRACE (Nesmith) — Wide-petalled bloom of pale lemon yellow, lightly ruffled.	\$3.00
HIWASSEE (McDade) —Very late pastel bicolor. Wide recurving petals of Vassar tan striped lemon yellow, faintly yellow underground. Sepals of lemon yellow lightly dusted with Vassar tan. Large blooms well spaced on tall, erect stalks.	\$7.50
HONEY REDHEAD (Nesmith) —Open and flaring flowers of velvety bright red with distinct border of pale creamy yellow. June-July.	\$2.50
HOPE (McDade) —Deep apricot-rose petals with soft yellow sepals. Unusually long season of blooms. Mid-June-early September.	\$1.00
HYPERION (Mead) — Large waxy soft canary yellow. July.	\$.35
J. A. CRAWFORD (Betscher) —Very fine in apricot and Cadmium yellow. June.	\$.35
JEAN (McDade) —A most sensational bicolor with very brilliant and rich contrasting colors. Brick-red petals with a medial yellow band; rich orange sepals with yellow-orange throat. Curly, fluted petals.	\$2.50
JOY RUSSELL (Russell) —Tall, very light yellow.....	\$1.00
J. S. GAYNOR (Yeld) —Open tubular flowers of orange apricot.	\$.50
LIDICE (Traub) —Medium sized flowers of deep fulvous orange throughout; full petaled and of fine substance. June.	\$3.00
LILLIAN RUSSELL (Russell) — Large open flowers of lemon flushed rose.	\$2.00
LINDA (Stout) —Pastel pink and yellow bicolor. July-August.	\$.40
LONE STAR (Russell) — Large red with chrome mid-rib.	\$5.00
LOVEBIRD (McDade) — Extremely late. Small, vivid flowers of Florida gold with tips of petals faintly flushed with Pompeian red. August-September.	\$1.00
LUSTROUS (Nesmith) —Large flower with bright pink color, overflushed with soft lustrous sheen. Repeats in the South.	\$3.50

PARRY NURSERIES — Signal Mountain, Tenn.

MAMIE LAKE (Russell)—Large blooms with rosy petals and lemon yellow sepals.	\$1.00
MARCUS (Perry) — Large, crinkled flowers of apricot, dusted with soft bronze.	\$.50
MARDI GRAS (Russell)—Cinnamon red with deep wide red eye.	\$1.00
MARGARET PERRY (Perry)—Brilliant orange-red with yellow throat and midlines.	\$.40
MARIE FAWCETT (McDade)—Lovely golden-rod yellow with long slender sepals and petals. Large blooms beginning July and repeating until frost.	\$5.00
MARTHA WASHINGTON (Wheeler) — Medium sized flowers of rich old rose. Lovely form.	\$10.00
MARTIE EVEREST (McDade)—Very large starlike open flowers of orange-red petals, and orange-gold sepals, rich golden throat. Very striking and showy in the garden.	\$5.00
MARY STOKER (Perry)—Large, clear orange red of lovely shape.	\$.50
MATADOR (Nesmith)—Brilliant mahogany red with velvet blush on petals. June-July.	\$2.00
MAYOR STARGYNSKY (Traub) — Glistening bronzy-rose.	\$1.50
* MERRYMAKER (McDade)—Very wide frilled petals of cinnamon-orange red. Sepals of Cadmium yellow. Lovely starlike shape. Begins blooming July, and keeps repeating until frost.	\$5.00
MERRY MOOD (Nesmith)—Pink with yellow throat.	\$3.50
MICHAEL ROBINSON (Russell)—Very dark and richly glowing.	\$3.00
MIDAS (Stout)—Full, spreading flowers of clear glowing orange.	\$.60
MIDWEST CAVALIER (Sass)—Cream with a brownish eye-zone. Tall stem, good branching.	\$2.00
MIDWEST MAJESTY (Sass)—Very large yellow, perfect form and heavy substance.	\$8.00
MIDWEST STAR (Sass)—Large, pale yellow flowers. One of the finest.	\$5.00
MIKADO (Stout)—Rich orange with large mahogany red eye zone. Repeats in the South.	\$.35
MI LADY (Nesmith)—Lily-like salmon pink flowers.	\$5.00
MINNETONKA (Russell)—Brown mahogany red.	\$3.00
MINNIE (Hayward)—Small mahogany red flower. Good garden effect.	\$.75
MINUET (Nesmith)—Frost pink shaded deeper rose.	\$2.00
MISS HOUSTON (Russell)—Fine pink with yellow throat.	\$2.50
MONGOL (Norton)—Very large yellow.	\$3.50
MORNING GLORY (Russell)—Red and yellow bicolor.	\$2.00
MOROCCO RED (Nesmith)—Fine brown-red with shallow orange cup.	\$2.00
MRS. B. F. BONNER (Russell)—Very similar to Hyperion, but much larger and wider petals.	\$1.00
MRS. HUGH JOHNSON (Russell)—Fiery red with satin sheen.	\$2.00
NEON (Wood)—Very vivid and starlike with petals of Moroccan red and sepals of Florida Gold. Low growing and fairly late.	\$3.00
NICKAJACK (McDade)—Extremely late blooming. The small fragrant flowers are of light, chrome flushed golden wheat.	\$1.00

NORMAN HAMILTON (McDade) —Lovely glowing deep yellow with rich orange throat. Large and of fine texture.	\$5.00
OLD VINTAGE (Russell) —Tall wine color with yellow throat.	\$1.00
ON TOUR (Russell) —Very large pale yellow with twisted blooms. Repeats.	\$1.00
OPHIR (Farr) —Large deep yellow.	\$.50
ORANGE BEAUTY (H. P. Sass) — Pure deep golden orange flowers which open flat.	\$7.00
ORANGEMAN (Yeld) —Large orange. Repeats in the South.	\$.35
OSCEOLA (Hayward) —Very dark rich mahogany. Repeats in the South.	\$.50
PAINTED LADY (Russell) —Huge open flowers with ruffled edges. Rose gold blend with deeper rose zoning and veining, sprinkled with gold dust and cinnamon.	\$6.00
PALE MOON (Cleveland) —Pale yellow with wavy petals. Opens evenings.	\$.50
PATRICIA (Stout) —Clear and even tone of pale yellow with greenish throat.	\$.50
PEPPERMINT STICK (McDade) — Almost a pure red with strip of white down the mid-rib giving it the appearance of Peppermint candy stick. Fades with the sun to a clear pink. Small flower with pleasingly recurved petals and sepals.	\$1.50
PERSIAN PRINCESS (Nesmith) — Velvety red petals, flushed purple; sepals somewhat lighter shade.	\$2.50
PINK CHARM (Nesmith) — Deep coral pink recurved flowers with shallow green-yellow throat.	\$3.00
PIQUANTE (Nesmith) —Lovely raspberry pink.	\$2.50
PLUM MIST (Claar) —Large open flowers of plum color with a smooth velvety finish. Shallow cup of light chrome yellow. Retains its rich coloring in the hot sun. Repeats in the South.	\$15.00
PORT (Stout) —Small flowers of rich, sprightly red. Many flowers on well-branched stalk. Often repeats in the South.	\$1.00
POTENTATE (Nesmith) — Medium sized pansy purple flowers, smooth and satiny.	\$10.00
PRINCESS (Stout) —Clear, uniform lemon yellow with full, recurved petals.	\$1.00
PURPLE FINCH (Nesmith) —Brilliant iridescent red purple with deeper flame-like blotch in the throat around a small yellow center. Often repeats in the South.	\$3.50
PURPLE FLASH (Russell) —Purple petals with deep purple eye zone; sepals yellow overcast with purple. Begins blooming June and blooms almost continuously until frost.	\$1.00
PURPLE WATERS (Russell) —Ruffled petals of deep rich wine color. Full, large flowers.	\$1.00
QUOTE ME (Russell) —Large deep yellow with ruffled petals and slightly recurved sepals.	\$3.00
RAJAH (Stout) —Large, gaily colored English-red with conspicuous eye zone; throat pale orange, with greenish tinge.	\$.50
RED BIRD (Stout) —Petals even-toned vermilion red with ox-blood eye and yellow-green throat. Petals recurved and semi-full.	\$2.00
RED CINDERELLA (Russell) —Brilliant Chinese red with satiny sheen and an orange throat. Wide petals are ruffled and slightly recurved.	\$1.00
RED HUSSAR (Nesmith) —Brilliant carmine and ox-blood red with orange cup.	\$3.00

PARRY NURSERIES — Signal Mountain, Tenn.

REGAL LADY (Nesmith) —Rose-red petals; yellow sepals flushed rose.	\$3.00
REGINALD STEED (McDade) — Recurving petals of warm rush orange with deep golden center. Very large with edges of petals slightly fluted.	\$5.00
ROSITA (Hayward) —Near carmine-crimson with coppery red tone.	\$1.00
ROYAL RUBY (Nesmith) —Brilliant red, almost crimson with slightly recurving sepals and petals. June-July....	\$7.50
ROYALTY (Nesmith) —Full maroon flowers with velvety sheen. Orange throat. June-July.	\$5.00

SANTA FE (Russell) —Twisted rosy-red petals, sepals overlaid with rose tint.	\$1.00
SATURN (Stout) —Flowers of robust multiflora type. Dark orange-red, overcast bronze.	\$2.00
SERENADE (Stout) —Very light pastel yellow and pink. Petals twisted and crinkled with faint halo. June.....	\$.60
SHEILA (McDade) —Large lily-shaped flowers which appear to be dusted with gold, giving it a glowing effect. Wide petals of amber-glow; sepals of Spanish gold.....	\$5.00
SONATA (McDade) —Evening bloomer. Rather crinkly petals and sepals of Citrus yellow, giving an effect of cool lemon ice. Greenish throat. Wide petals and sepals. Begins blooming last of July, and continues sending up new shoots until frost.	\$10.00
SONNY (Stout) —Clear, pale yellow, heavy waxy texture. Open evenings.	\$.75
SOUTHERN QUEEN (McDade) —Flowers of bronze orange-red which retain coloring in full sun. July-August.	\$2.50
SPANISH CAVALIER (McDade) —Startling in color and effect, this bicolor has petals of Burnt Sienna with reddish overcast, and sepals of Spanish yellow. Edges of petals faintly fluted. Very late. July-August.	\$5.00
SPRINGTIME (Russell) —Very attractive cream and pink bicolor.	\$1.00
STALWART (Cook) —Tawny reddish brown. Rich in coloring; large flowers. June-July.	\$.50
STARLIGHT (Nesmith) —Very fine light yellow, slightly ruffled. Night bloomer. June-July.	\$1.50
STAR OF GOLD (H. P. Sass) —Hugh pale yellow flowers. June-July. Repeats.	\$1.00
STRIPEY (McDade) —India red petals and sepals with rich ochre throat, the ochre from the throat forming a V on the petals and sepals then continuing down the India red to the end of the petals. Recurving sepals and petals. June-August	\$1.00
SUNNY WEST (H. S. Sass) —Large, pale yellow. Late June-July.	\$.50
SWAN (Watkins) —Extremely large, pure orange flowers.	\$5.00
SWEETBRIAR (Nesmith) —Very large, wide petaled rose-pink.	\$3.00
SYMPHONY (Stout) —Delicate blend of pastel tones.	\$1.50
TARA (Nesmith) —Widely-flaring rose-red flowers.	\$2.00

THE DIRECTOR (Russell) — Large, wide flower with overlapping petals, ruffled and crinkled like crepe paper. Rich Burgundy red.	\$2.00
THE SULTAN (Nesmith) — Deep mahogany red with orange throat.	\$6.00
THERON (Stout)—Deep wine-colored flowers with pale orange throat. Petals slightly twisted at the end.	\$1.00
TOKAY (Nesmith)—Salmon with deeper pink zone; yellow throat.	\$2.50
TRACERY (Nesmith)—Open cup shaped blooms of pale yellow with faint tracing of salmon buff in the center, giving it the effect of delicate lace. July.	\$3.50
TRAIL BLAZER (Russell)—Large, fiery red. Repeats in the South.	\$8.00
TRIUMPH (Stout)—Large, rich orange with slight fulvous red halo in midzone. Petals broad, strongly recurved. June.	\$1.00
VULCAN (Stout)—Velvety maroon with orange throat, overlaid red.	\$.50
WAR PATH (Russell)—Very rich, deep but bright red with satiny sheen.	\$1.50
WAU-BUN (Stout)—Large flowers of light Cadmium yellow, slightly sprinkled with faint traces of fulvous red. \$.75	
WEKIWA (Traub)—Rich velvety red, very brilliant. \$2.50	
WELAKA (Watkins)—Medium sized flowers of good substance, rippled like crepe paper. Mandarin Orange color, flushed rosy fulvous tones.	\$1.00
WELCOME (McDade)—Deep, dusty rose with brilliant iridescence as if sprinkled with golden jewels. Broad recurving petals and sepals. July-August.	\$1.50
WHEELER'S HALO (Wheeler)—Wide frilled petals with twisted tips. Light yellow faintly dusted pink at the eye zone and on edges of the sepals.	\$2.50
WHIPPOORWILL (McDade)—Spanish yellow evenly colored self. Beautiful trumpet shaped blooms of good size. Fragrant. July-September.	\$5.00
WOLOF (Stout) — Dark velvety maroon, throat clear orange.	\$2.00
WONDER GOLD (Betscher)—Lovely large golden flowers. May-June. Repeats.	\$.50
YELDRIN (Stout)—Small but full, yellowish orange. \$2.00	

PAEONIA ARBOREA—TREE PEONIES

Words cannot do justice to the magnificence of the tree peony—aristocrat of shrubs. To those familiar with its beauty and charm, your hearts have already been won, and you can easily understand why the tree peony was considered almost sacred in the Imperial Gardens of the Chinese Emperors, and was the inspiration for poets and painters during China's Golden era. To those not familiar with this distinctive plant, a rare treat is in store for you.

The name "Tree Peony" is somewhat misleading, as it is really a shrub, attaining a height of four to five feet. Plants have been known to produce as many as four hundred magnificent flowers in one season, measuring from 9 to 12 inches in diameter.

Its lacy foliage makes the tree peony a beautiful specimen plant even without the glorious blooms of crepe-paper-like texture, ruffled and crimped on the edges of the petals.

So sensational was the introduction of the tree peony to Europe in the 17th Century, that single plants exchanged hands at between four and five hundred dollars each. There

are plants in Boston more than a hundred years old, and in Philadelphia many plants date back to the Centennial Exposition of 1876.

Can it be wondered that the Tree Peony is referred to as "The King of Flowers" and "The King's Ministers"?

We are happy to be able to offer this favorite of the millionaires at a price the millions can afford.

The following prices are for shrubs from 5 to 8 years old, field grown; sizes varying according to variety. These field-grown plants cannot be compared with pot-grown plants sometimes offered at a lower price.

Cultural directions included with each shipment.

ABRAHAM LINCOLN—Silvery pink.	\$6.00-\$8.00
ADZUMA KAGAMI—Lilac Rose.	\$10.00-\$12.00
ADZUMA SAKI—Deep scarlet	\$10.00
ALBA VIOLACAEA—Violet.	\$6.00-\$8.00
ARCHIDUC LUDOVICO—Flesh pink, turning soft lilac.	\$10.00-\$12.00
ATHLETE—Purple.	\$6.00-\$7.00-\$9.00
BALZAC—Carmine pink.	\$6.00-\$8.00
BARONNE d'ALES—Vivid Pink.	\$6.00-\$7.00-\$9.00
BEAUTE de TOKIO—Purple carmine.	\$6.00-\$8.00
BELLE d'ORLEANS—Carmine.	\$8.00
BLANCHE de NOISETTE—Rosy white.	\$5.00-\$6.00-\$8.00
CENTIFOLIA ROSEA—Pink.	\$5.00-\$6.00-\$8.00
COBIENSKI—Rose violet.	\$6.00-\$8.00
COMTESSE de TUDOR—Rose.	\$7.00-\$8.00-\$10.00
DONNA MARIA—Satiny pink.	\$6.00-\$8.00
ELISABETH—Rose (Reine Elizabeth)	\$5.00-\$8.00
FLORA—Pure white.	\$12.00-\$14.00
FRAGRANS MAXIMA PLENA — Clear rose, fragrant.	\$7.00-\$9.00
GEORGES PAUL—Violet and amaranth.	\$5.00-\$6.00-\$8.00
GEORGE SAND—Salmon pink	\$6.00-\$8.00
GIOKU-SENSHIU—Rose red.	\$12.00
HAKU GAN—Snow white.	\$8.00-\$10.00-\$12.00
HENRYI—Amaranth.	\$6.00-\$8.00
IMP. JOSEPHINE—Rose.	\$6.00-\$8.00
JEANNE d'ARC—Salmon.	\$5.00-\$6.50-\$8.50
JITRENKA—Pink.	\$6.00-\$8.00
JULES PIRLOT—Satin rose.	\$6.00-\$8.00
KURO-BOTAN—Maroon red.	\$8.00-\$12.00
LACTEA—White.	\$8.00-\$10.00-\$12.00
LOUIS MOUCHELET—Salmon red	\$6.00-\$7.00-\$9.00
MME. de VATRY—Satiny pink, shaded lilac rose.	\$6.00-\$7.00-\$9.00
MAD. FERDINAND LEMAITRE—Pink.	\$6.00-\$8.00
MME. LEMOINE—Apricot.	\$10.00-\$12.00
MME. STUART LOW—Salmon red.	\$7.00-\$9.00
METEORE—Rose.	\$6.00-\$8.00
MICHISHIBI—Crimson.	\$10.00-\$12.00
MORRIS—Cherry red.	\$6.00-\$7.00-\$9.00
MOUTAN—Rose.	\$5.00-\$6.00-\$8.00
NERON—Scarlet.	\$8.00-\$10.00
OSIRIS—Red.	\$6.00-\$8.00-\$10.00
REGINA BELGICA—Rose salmon.	\$6.50-\$7.50
REINE de PORTUGAL—Dark pink.	\$6.00-\$8.00
REINE des VIOLETTES—Violet.	\$6.00-\$8.00
SAIGYO-ZAKURA—Blush pink.	\$8.00-\$10.00-\$12.00
SAVII—Fine red.	\$6.00-\$8.00
SOUV. de CHENONCEAUX—Cherry red.	\$6.00-\$7.00-\$9.00

SOUV. de DUCHER—Violet shaded purple.	\$4.00-\$6.00-\$8.00
SOUV. d'ETIENNE MECHIN—Salmon.....	\$6.00-\$7.50
SOUV. de la COUVELLERIE—Lilac rose.....	\$6.00-\$8.00
SOUV. de MAXINE CORNU — Yellow, heavily shaded orange, large double blooms; fragrant; profuse bloomer.	\$10.00-\$15.00-\$18.00
TRIOMPH de GAND—Rose.	\$6.00-\$8.00
TRIOMPH de VANDER MAELEN—Violet pink.	\$5.00-\$6.00-\$8.00
VILLE de ST. DENIS—White.	\$10.00-\$12.00

AZALEAS

Without a doubt azaleas are the most beautiful flowering plant we have, their season lasting for several months by planting with blooming time in mind. All azaleas are profuse bloomers and give a beautiful effect with their solid mass of color.

Some are dwarf, making them especially suitable for the rockery; others are of compact, medium growth and blend in well with other evergreen shrubs.

For all-around performance—brilliant coloring, profusion of bloom and versatility of use, there is no shrub that can rival the azalea.

DECIDUOUS VARIETIES

MOLLIS AND MOLLIS X SINENSIS HYBRIDS

Unlike all other azaleas, the Mollis hybrids are quite tolerant of lime and do well almost anywhere. They are very hardy.

ALPHONSE LAVALLE—Bright orange, pink flushed. 9-12 in., 12-15 in.

DIR. MOERLANDS—Golden yellow. 12-15 in., 15-18 in.

DR. REICHENBACH—Salmon. 12-15 in.

FRANS VAN DER BOM—Salmon rose. 9-12 in., 12-15 in.

HORT. H. WITTE—Orange. 9-12 in., 12-15 in.

HUGO HARDIJZER—Geranium red. 12-15 in., 15-18 in.

J. C. VAN TOL—Scarlet red. 9-12 in., 12-15 in.

NICHOLAS BEETS—Deep yellow. 12-15 in.

VON GNEIST—Orange red. 12-15 in., 15-18 in.

PONTICA HYBRIDS

HARDY GHENT AZALEAS

These are the fine hybrid azaleas (also Rustica plena) whose ancestors were taken, many years ago from the wilds of America by enthusiastic hybridizers of fine plants, to the Old World. There they were crossed with Chinese and Japanese azaleas to produce a profusion of color, in single and double blooms, ranging from white to all shades of yellow, pink, salmon and red.

Retaining the hardiness of their North American ancestors, these native sons have now returned to their ancestral home, bedecked in a magnificence of splendor and beauty. Delightfully fragrant. They are brilliant in fall as well as spring with leaves turning to richest shades of coppery red and fiery browns.

BOUQUET de FLORE—Bright pink, striped white. 18-24 in., 2-3 ft.

COCCINEA SPECIOSA—Brilliant orange-red. 12-15 in., 15-18 in., 18-24 in.

FANNY—Magenta-pink, tinted purplish. 15-18 in., 18-24 in.

GLORIA MUNDI—Bright orange, yellow lobe. 18-24 in.

GRANDEUR TRIUMPHANT—Violet-red. 18-24 in.

NANCY WATERER—Golden yellow, deeper eye. 15-18 in., 18-24 in.

NARCISSIFLORA—Sulphur yellow, double. 12-15 in., 15-18 in., 18-24 in.

PALLAS—Orange red. 9-12 in., 12-15 in., 15-18 in.

PRINCE OF THE BELGIANS—Deep rose, fringed. 18-24 in.

RAPHAEL de SMET—White, shaded rose, double. 9-12 in., 12-15 in., 15-18 in., 18-24 in.

SANG de GENTBRUGGE—Crimson. 12-15 in., 15-18 in.

RUSTICA PLENA

EARLY—Fine art shades, double flowering and of compact habit.

AIDA—Rose, slightly tinged lilac. 9-12 in.

CORNEILLE—Rose. 12-15 in.

IL TASSO—Rose red, tinted salmon, giving it a Talisman rose effect. 9-12 in., 12-15 in., 15-18 in.

MILTON—White. 12-15 in., 15-18 in.

MURILLO—Red with rosy purple. 12-15 in., 15-18 in.

NORMA—Rosy red. 12-15 in., 15-18 in.

PHIDIAS—Cream, flushed rose. 15-18 in.

Prices on all above azaleas: 9-12 in., \$2.00; 12-15 in., \$2.50; 15-18 in., \$3.00; 18-24 in., \$3.50; 2-3 ft., \$4.00.

EVERGREEN AZALEAS

We can offer the following azaleas in small sizes from 6 to 10 inches, sizes varying according to type. With shipping costs so high, many people prefer to buy smaller sized plants. They cost less, transplant more easily, and in a year or two are as large as those plants which cost two and three times as much.

The entire country is becoming azalea-conscious, and people are beginning to learn that they can have lovely evergreen azaleas in locations that have never been thought suitable for azaleas. Each year new and hardy varieties are being developed. Azaleas produce a wealth of color in early spring that would be impossible to obtain at any cost from any other plants.

Some are dwarf-growing, some fairly fast-growing. They bear myriads of flowers in spring, sometimes covering the entire plant. They are extremely hardy, and are evergreen except a few which lose their leaves in the New England states. The Kurumes are hardy as far north as New York. The Hardy Japanese are hardy in New England. The Vuykiana Azaleas are a new race of very large flowered Japanese Azaleas. They are sturdy growers, prolific bloomers and very hardy. Azaleas are abbreviated as follows: Kurume—Kur.; Hardy Japanese—H. J.; Vuykiana—Vuy.

The following varieties, \$1.00 each—\$10.00 a dozen.

AMOENA (H. J.)—Small, bronzy foliage, double, claret flowers.

BEETHOVEN (Vuy.)—Large mauve.

BRIDESMAID (Kur.)—Glowing salmon-pink flowers borne in large clusters.

FLAME (H. J.)—Bright orange-red flowers early in season. Very showy.

HARDY FIREFLY (H. J.)—Brilliant, fiery-red flowers of good size. Compact growing and very hardy.

HINODEGIRI (Kur.) — Brilliant crimson-red flowers smother the entire plant.

HINOMAYO (H. J.)—Soft pink flowers. Profuse early bloomer and one of the hardiest.

JOHANN STRAUSS (Vuy.)—Deep salmon-rose.

KAEMPFER (H. J.)—Big, single, red flowers borne profusely late in the season. Hardy. Can stand the winters of Boston without any protection.

MACRANTHA ORANGE (H. J.)—Orange-red flowers late in season. Very compact.

MACRANTHA PINK (H. J.)—Single, medium-sized pink flowers late in season. Compact.

MACRANTHA Double-flowering (H. J.)—Same as above except with double pink flowers of good size. Late blooming and very hardy.

MAXWELLI (H. J.)—Carmine-red, single flowers are big and very attractive.

PALESTRINA (Vuy.)—Pure white, faint green eye.

SALMON BEAUTY (Kur.)—Large hose-in-hose salmon pink flowers.

SCHUBERT (Vuy.)—Light pink.

SIBELIUS (Vuy.)—Orange-red.

SNOW (Kur.)—Large, hose-in-hose flowers of purest white.

SWEETBRIAR (Kur.)—Medium-sized, single pink flowers.

We can also offer the following Indica varieties 8-12 inches, \$1.00 each; \$10.00 a dozen:

INDICA ALBA (Ledifolia alba)—Very large, white flowers. Good grower and profuse bloomer.

INDICA ROSEA (Ledifolia rosea) — Similar to Indica alba, excepting the big, single white flowers are tinted rose.

FORMOSA—A big, robust grower with large dark leaves and big purplish pink flowers, freely produced. Not hardy in the north.

HYBRID RHODODENDRON

The aristocrat of all broad-leaved evergreens, these handsome plants are very majestic with their lush, almost tropical luxuriant foliage. Huge clusters of exotic flowers are framed artistically with broad, leathery foliage.

Contrary to common belief, rhododendron are not difficult to grow. They require well-drained acid soil.

All varieties listed here are extremely hardy—all B. & B.

ADMIRAL PIET HEIN—Lilac, 12-15 in.

ANTOON VAN WELIE—Carmine pink. 15-18 in., 18-24 in.

DR. ARNOLD W. ENDT—Very large flowering carmine. 12-15 in., 15-18 in., 18-24 in.

CARACTACUS—Purplish crimson. 12-15 in., 18-24 in., 30-36 in.

COUNTESS OF ATHLONE—Mauve. 12-15 in.

DR. H. C. DRESSELHUYS—Aniline-red. 12-15 in.

DR. H. J. LOVINK—Aniline-red. 18-24 in.

DR. V. H. RUTGER—Red, fringed. 18-24 in., 24-30 in.

F. D. GODMAN—Dark red. 18-24 in., 24-30 in.

GOMER WATERER—White, green spotted. 12-15 in., 18-24 in.

IGNATIUS SARGENT—Light red. 24-30 in., 30-36 in., 3-4 ft.

JOHN WALTER—Crimson. 12-15 in.

KATE WATERER—Rose, yellow center. 12-15 in., 18-24 in., 24-30 in.

LADY ANNETTE de TRAFFORD — Blush, chocolate blotch. 12-15 in.

LOUIS PASTEUR—Bright red, light center. 12-15 in.

PARSONS GLORIOSUM—Rosy pink. 18-24 in., 24-30 in., 30-36 in.

PROF. J. H. ZAAYER—Bright light red. 12-15 in., 15-18 in., 18-24 in.

ROSEUM SUPERBUM—Soft rose. 30-36 in., 3-4 ft.

VAN DER HOOP—Carmine rose. 18-24 in., 24-30 in., 30-36 in.

VAN WEERDEN POELMAN—Crimson. 12-15 in., 18-24 in.

Prices on all above hybrid rhododendron: 12-15 in., \$4.00; 15-18 in., \$5.00; 18-24 in., \$7.00; 24-30 in., \$8.50; 30-36 in., \$10.00; 3-4 ft., \$12.50.

RHODODENDRON CATAWBIENSE — Native specie. Medium sized, dark green leaves. Purplish red flowers. 12-18 in., \$2.50, 18-24 in., \$3.00; 24-30 in., \$3.50.

Join the American Rhododendron Society. Privileges of membership include the Year Book of the American Rhododendron Society and all the Quarterly Bulletins. Individual membership \$5.00 per year. Send membership to us, check made payable to American Rhododendron Society, or direct to the Society, Box 8828, Portland 7, Oregon.

BROADLEAVED EVERGREENS

ABELIA GRANDIFLORA—Quantities of white and pink arbutus-like flowers cover this lovely shrub all summer. Glossy evergreen foliage. Splendid for hedge. Set plants 1½-2 ft. apart. 12-18 in., 60c each; 18-24 in. 75c each. For hedges, write for special prices.

AZALEAS—See Page 13, 14, 15.

CAMELLIAS—Camellias are going North! People are finding that Camellia sasanqua can be grown considerably farther north than was formerly thought possible. These handsome flowering evergreens are proving to be hardy as far north as Philadelphia, and are believed to be as hardy as the Kurume Azaleas. They begin their blooming season in late fall—sometimes flowering with snow on them.

The leaves are a dark, rich green. These plants are excellent for specimen planting being covered at blooming time with hundreds of blossoms, or are fine for hedge planting.

CLEOPATRA—Large, beautiful cherry-red flowers, often double and having crinkled petals. Foliage thick, dark and glossy. A vigorous and compact grower. 15-18 in., \$1.50; 18-24 in., \$2.00.

DAWN—Flowers large, single to semi-double, ivory-white changing to flesh pink at the margin of the petals. Extremely hardy and blooms continue long after other sasanquas are over. 15-18 in., \$2.00; 18-24 in., \$3.00.

MINE-NO-YUKI (Snow on the Mountain) — The large, double, white flowers resemble a carnation and are borne in such profusion as to literally cover the entire plant. When young, it is a loose, open grower, but as it gets older it develops into a symmetrically round and compact specimen. 15-18 in., \$1.50; 18-24 in., \$2.00.

NEGISHEKO—Flowers very large, single, deep pink and very showy. Strong, upright grower with dark glossy foliage. 15-18 in., \$1.50; 18-24 in., \$2.00.

ROSEA—A graceful and upright grower with very large single flowers of brilliant pink. 15-18 in., \$1.50; 18-24 in., \$2.00.

SETSUGEKKA—A new variety of great beauty and merit. The large, semi-double flowers are pure white, with just a touch of pink at the ends of the slightly ruffled petals. The plant is erect and compact in habit, with dark, handsome foliage. 15-18 in., \$2.00; 18-24 in., \$3.00.

ERICA MEDITERRANEA—A graceful little shrub with small dark green needles and delicate little spikes of lavender-pink flowers during winter. 6-9 in., 75c; 9-12 in., \$1.00.

EUONYMOUS PATENS (Sieboldiana) — A handsome Chinese Burning Bush, particularly lovely in fall and winter when covered with myriads of coral-red berries. 9-12 in., 60c.

LAUROCERASUS OFFICINALIS—English Cherry-Lau-rel. Beautiful broad, shining foliage. A plant of great vigor, thriving in any ordinary good, well-drained soil. Not hardy north of Washington, D. C. After plants are several years old they produce spikes of small white flowers. A fine plant for single specimen or for mass planting. 15-18 in., \$1.00; 18-24 in., \$1.50.

LIGUSTRUM LUCIDUM—Glossy Privet. One of the South's most popular Broadleaved Evergreens. Ideal for foundation planting, borders and groups. White flowers in summer, blue berries throughout the winter. 9-12 in., \$1.00; 12-15 in., \$1.25.

NANDINA DOMESTICA — Heavenly Bamboo. An extremely decorative plant all year. Small light green foliage in summer, turning to beautiful red in autumn. In early summer large panicles of white flowers are produced, and in the winter, terminal spikes of large bright red berries are retained until the following spring. Hardy to Washington and Long Island. 12-15 in., \$1.50.

PYRACANTHA COCCINEA LALANDI (Laland Firethorn)—Handsome evergreen shrub with narrow rich, glossy leaves and covered with a profusion of white flowers in spring, followed by bright orange berries during the winter. Excellent trained against walls, buildings or arched gateways.

PYRACANTHA FORMOSANA—Compact and fast grower. Small glossy leaves and large bright red berries. Not hardy north.

PYRACANTHA GIBBSI—A beautiful variety of spreading dwarfish habit. Shining green leaves and mass of bright red berries.

PYRACANTHA GRABERI—This is a type of Formosa that is hardy in all the Central states. Huge clusters of bright red berries.

PYRACANTHA ROGERSI—Compact low-growing type. White flowers in spring, followed by bright red berries.

Prices on all above varieties: 4-inch pot, \$1.00. Fall delivery.

RHODODENDRON—See Page 15, 16.

ORNAMENTAL AND FLOWERING SHRUBS

BERBERIS ATROPURPUREA (Red-leaved Barberry)—Brilliant purple-red foliage. Yellow blossoms followed by red berries in the fall which hang on well into the winter. Often used for hedging. 12-18 in., 60c; 18-24 in., 75c.

BUDDLEIA (Butterfly Bush)—Fine, well-branched No. 1 plants.

Charming—Long sprays covered with lavender-pink blooms; pink more noticeable in the sun.

Dubonnet—Rich carmine-purple similar to the color of the French wine Dubonnet. Large spikes and individual flowers of good size that do not sunburn.

Farquahari—Sprays of light lavender flowers with faint touch of golden in center of bloom.

Ile de France—Large flowers of rich claret purple borne in long sprays.

Prices on all above varieties: 60c each. 1 of each for \$2.00.

CARAGANA ARBORESCENS (Siberian Pea Shrub)—Cutleaf caragana. Yellow twigged upright shrub with pea-like yellow flowers in spring. An abundance of bright green foliage. 2-3 ft.\$1.50

CERCIS CANADENSIS (Redbud or Judas Tree)—Beautiful small tree with small pink-lavender flowers literally covering the stems in early spring before the attractive heart-shaped leaves appear. 18-24 in., \$1.00; 2-3 ft., \$1.50.

CORNUS FLORIDA (White Flowering Dogwood)—It is impossible to do justice to the dogwood through pen and ink. Its manner of growth is so entrancing, branching out in a flat kind of way, as though some Japanese decorative artist had arranged the branches to show the blooms to the best advantage. 18-24 in., 75c, 2-3 ft., \$1.00.

CORNUS FLORIDA RUBRA (Pink Flowering Dogwood)—Same as above except exquisite pink blooms cover the tree. Very choice. 2-3 ft.\$3.50

COTONEASTERS (Rockspray)—

Adpressa—A spreading dwarf shrub, a gem for the rock garden with tiny leaves, white flowers and brilliant dainty red berries. Creeping. 4-6 in., 50c; 12-18 in., \$3.00.

Dielsiana—Arching branches, red fruit. 12-15 in., 75c.

Zabeli—Graceful pendant branches and large purplish-red berries. 6-9 in., 50c.

CYDONIA JAPONICA (Flowering Quince)—Attractive in spring with masses of flame-colored blooms covering the plant just as the glossy leaves are coming out. Beautiful cut flower to bring in the house in late winter and allow the blooms to open indoors. 9-12 in., 50c; 12-15 in., 60c.

CYTISUS (Scotch Broom)—A profusion of rich, deep yellow, artistic pea-like flowers are borne singly along the rich green branches in early spring. Stems being green give this the appearance of an evergreen shrub. 12-15 in.\$.60

DEUTZIA SCABRA (Pride of Rochester)—Double white, back of petals faintly tinted with pink. Large panicles of blooms in early spring, continuing to bloom for 3 to 4 weeks. 18-24 in.\$.50

DEUTZIA SCABRA CRENATA (Fuzzy Deutzia)—Pure white single flowers produced in great profusion in early spring. 18-24 in.\$.50

ELEAGNUS PUNGENS FRUITLANDI—Strong growing evergreen shrub with leaves very dark green above, silvery beneath. Creamy white, fragrant flower in late fall. 15-18 in.\$2.00

EUONYMUS AMERICANA—Hardy, erect shrub with slender green branches and dark green leaves. The rich fruits are concealed in bright wine-red pods, bursting open in autumn and revealing scarlet red seeds. Very showy. 15-18 in.\$1.00

EXOCHORDA GRANDIFLORA (Pearl Bush)—Richest waxy white flowers completely cover this shrub in early spring. Before opening completely the small buds look like pearls hanging from the graceful branches. Beautiful in

mass planting, creating the appearance of a snowbank when in full bloom. 12-15 in.\$.60

FORSYTHIA INTERMEDIA SPECTABILIS—The most beautiful of the Golden Bells. One of the best shrubs for the South. Stands heat, drought and partial shade. Blooms profusely in early spring when flowers are scarce, covering the plant with bell-shaped flowers of golden yellow. 18-24 in., 50c; 2-3 ft., \$1.00; 3-4 ft., \$1.50.

HAMAMELIS (Witch-Hazel)—

Hamamelis japonica arborea—A most satisfactory winter-flowering shrub. Golden yellow flowers with purple calyx before the leaves appear. 3-4 ft., \$3.50; 4-5 ft., \$4.00.

Hamamelis mollis—Finest golden yellow. Fragrant flowers before leaves appear. 2-3 ft., \$3.50; 3-4 ft., \$4.50.

Hamamelis Zucceriana — Pale yellow. Very floriferous and extremely hardy. 2-3 ft., \$3.50; 3-4 ft., \$4.50.

HYDRANGEA PANICULATA GRANDIFLORA (Pegee Hydrangea)—Huge white conical flowers in midsummer to fall, borne on gently arching stems over large rich green leaves. Flowers turn pink with age, and are often used as dried flowers in winter flower arrangements. 12-18 in. 75c.

HYDRANGEA—Blue or pink. Large dark green leaves. Enormous clusters of blue flowers in acid soil—pink in non-acid. Fine 2-yr. plants.\$1.50

HIBISCUS (Althea)—Often called Rose of Sharon. Tall shrubs for hedges, screens or tall borders. Beautiful large blooms, at times almost covering the plant and a continuous bloomer all summer. Red, white, or purple. 18-24 in.\$.50

KERRIA JAPONICA (single)—An unusually attractive shrub with showy golden yellow single flowers, much like a small rose, in early spring, then continues blooming all summer. The smooth bright green branches are especially effective in winter. 12-15 in., 50c; 15-18 in., 60c; 18-24 in., 75c; 2-3 ft., \$1.00.

KERRIA JAPONICA FLORAPLENA—Double form of the above. 12-15 in., 50c; 18-24 in., 75c.

KOLQUITZIA AMABILIS (Beauty Bush)—A handsome and showy shrub upright in growth with long, gracefully arching branches covered with clusters of bell-shaped light pink flowers in spring. Graceful shape all year round. 12-18 in.\$.60

LABURNUM ALPINUM (Scotch laburnum) — Golden chain tree. Hardy.

LABURNUM ANAGYROIDES—Very lovely variety of Golden Chain Tree.

LABURNUM VOSSI — Long clustered Golden Chain. Small tree-like shrub with flowers of pure golden yellow and formed exactly like those of wisteria. Flower clusters as long as 18 inches in length.

Prices on all above laburnums: 3-4 ft. \$3.50; 4-5 ft. \$4.50.

LAGERSTROEMIA INDICA (Crape Myrtle)—One of the loveliest flowering shrubs for the South. Blooms profusely during hot summer months. The large clusters of flowers are beautifully frilled. Crape myrtle often remain dormant first summer after planting. They should be cut back, watered and cultivated carefully. Red, pink, or white. 18-24 in.\$.75

LONICERA FRAGRANTISSIMA (Winter Honeysuckle)—Intensely fragrant creamy white flowers cover this plant during January and February. Evergreen in the South. 12-15 in., 50c; 18-24 in., 60c.

MAGNOLIA ACUMINATA (Cucumber Tree) — Somewhat resembles the Tulip Tree. Large, light green foliage. Huge cream-colored blossoms, tulip shaped, in the spring, followed by red seed pods. 2-3 ft., \$1.00; 3-4 ft., \$1.50.

MAGNOLIA LILIFLORA—Flowers large and lily-like in shape, rich reddish purple on the outside with creamy white on the inside. One of the finest flowering trees. 2-3 ft., 3-4 ft.

MAGNOLIA RUSTICA RUBRA — Large, cup-shaped, dark reddish purple flowers with handsome seed pods 6 inches long. Vigorous grower and especially desirable where a tall spreading magnolia is wanted. Blooms later than soulangeana, and is one of the best of the more recent introductions. 2-3 ft., 3-4 ft.

MAGNOLIA SOULANGEANA—Small tree with large, 9-inch petal, pinkish flowers before leaves appear in the spring. 18-24 in., 2-3 ft.

MAGNOLIA SOULANGEANA NIGRA — Deep purple. Blooms later than soulangeana. 18-24 in., 2-3 ft., 3-4 ft.

Prices on above magnolias 18-24 in., \$3.00; 2-3 ft., \$4.00; 3-4 ft., \$5.00.

MAGNOLIA STELLATA (Star Magnolia) — A dwarf grower. Numerous delicate pinkish-white waterlily like flowers appear in early spring. Fragrant. 18-24 in \$3.50

PHILADELPHUS (Mock Orange)—

Albatre—Lovely sweet-scented pure white flowers, semi-double; low bushy grower. 15-18 in., 2-3 ft.

Belle Etoile—Large, milky white flowers with conspicuous light purple blotch in center. Vigorous; fragrant. 12-15 in.

Girandole—Double white, profuse bloomer. 15-18 in., 2-3 ft.

Inodorus—Large white flowers, profuse bloomer. 15-18 in., 2-3 ft.

Prices on all above philadelphus: 12-15 in., 60c; 15-18 in., 75c; 2-3 ft., \$1.00.

SORBUS ARIA LUTESCENS (White Beam Tree)—Attractive yellow foliage. 3-4 ft. \$3.00

SORBUS AUCUPARIA (Mountain Ash) — A small tree especially noted for its red berries in the fall. Masses of white blooms in the spring. 5-6 ft. \$4.50

SPIREA VAN HOUTTEI—A graceful shrub which produces a profusion of single white flowers during early spring. On of the most popular Spireas. 12-15 in., 50c; 18-24 in., 60c.

STEWARTIA PENTAGYNA (Mountain Stewartia)—White flowers 3 inches across with white stamens and orange anthers. Leaves very brilliant in fall. Rare. 18-24 in., 60c; 2-3 ft., 75c.

SYMPHORICARPOS VULGARIS (Coralberry)—Small coral-red berries, almost purple, cluster in thick ropes along stems. Foliage is small and dark. \$.50

VIBURNUM OPULUS (Cranberry Bush)—Like the Common Snowball, but the white flowers are in flat clusters. Bright scarlet cranberry-like fruits, $\frac{3}{8}$ in. long, color in late summer, remaining well into winter. 18-24 in. \$1.00

VITEX MACROPHYLLA—Spikes of lavender-blue flowers late summer to fall. 12-15 in., 75c; 15-18 in., \$1.00.

WEIGELA EVA RATHKE—Flowers deep carmine red. Profuse blooming, continuing over long period. 18-24 in., 75c; 2-3 ft., \$1.00.

VINES

- BIGNONIA RADICANS** (Trumpet Creeper)—Bold growing with interesting luxuriant foliage. Brilliant clusters of huge trumpet-shaped orange-scarlet flowers make this vine a worthy addition to any garden. 2-3 ft.\$.50
- LONICERA JAPONICA HALLIANA** (Hall's Honeysuckle)—Very strong growing. Dark green leaves. In early summer extremely fragrant white flowers changing to yellow. Splendid climber or ground cover. Sun or shade. 12-15 in.\$.35
- LONICERA SEMPERVIRENS** (Scarlet Trumpet Honeysuckle)—This variety is notable for its clusters of tubular scarlet blossoms and its brilliant red fruits. 2 year plants\$.35

HAVE FUN AND ADVENTURE IN YOUR OWN HOME NURSERY

A few dollars invested now, plus a little patience and a couple of good growing seasons will give you specimen plants worth many times their original cost. You will amaze your friends when you proudly show them these plants as your babies, for it will have been you who grew them on from their small sizes to these fine specimens. You will have heaps of fun and adventure watching your children grow and develop. You will know just where you want to place them in your permanent planting, and by clipping, pruning and shaping, eventually have the size and shape of plant that YOU want for that particular spot.

All you need is a small plot carefully prepared in which to put your small plants. Those marked X should have some shade the first year. Those XX are ready to be put out in the open to grow on before putting them in their permanent home. Shade can easily be provided by placing stakes at each end of your prepared plot and shading that area with lath or cheese cloth about 4 or 5 feet above the plants. Shade could also be provided by placing branches across the frame work over your plot.

Please add 25 cents postage on orders of less than \$3.00

ABELIA EDWARD GOUCHER—Very similar to Abelia grandiflora except that the lilac-pink blooms are twice as large when open. XX 6-8 in.\$.35

ABELIA GRANDIFLORA — (Described under Broad-leaved Evergreens) 6-8 in., 3 for\$.50

AZALEAS—These fine, strong 4-6 in. plants are 25c each, 10 for\$2.00

Bridesmaid—Big salmon pink flowers borne in large clusters.

Beethoven—Large mauve.

Daybreak (Kur.)—Pure light pink flowers in dense clusters. Very free flowering.

Elisabeth Gable (Hardy Gable)—Late rose-pink flowers. Reliable bloomer.

Esmeralda (Kur.)—Pink flowers cover entire plant.

Hardy Firefly (H. J.)—Brilliant, fiery-red flowers of good size. Compact. Hardy.

Hatsugiri (Kur.)—Purplish-crimson.

Hinodegiri (Kur.)—Single red. Very fine.

Hinomayo (H. J.)—Single pink, early.

Johann Strauss (Vuy.)—Deep salmon-rose.

Indica alba (Indica)—Large white flowers.

Indica rosea (Indica)—Large white flowers flushed rose.

Kaempferi—Large single red flowers. Late. Hardy.

Macrantha—Single pink. Medium-sized pink flowers late in season.

Macrantha—Orange. Similar to above with narrow leaves and orange-red flowers.

Macrantha—Double-flowering. Double pink flowers of good size. Blooms late.

Maxwelli (H. J.)—Large carmine-red, single flowers.

Mary (Kaempferi hybrid)—Large deep pink. Very distinctive and very hardy.

Palestrina (Vuy.)—Pure white, green eye.

Pink Pearl (Kur.)—Large, most beautiful pink blooms, shaded lighter toward center, with prominent markings, borne in large clusters.

Poukhanensis—Fragrant rose-pink to rose-purple flowers produced abundantly in early spring. Deciduous, low spreading habit. Hardy in New England.

Salmon Beauty (Kur.) — Large, hose-in-hose, salmon pink flowers.

Salmon Queen (Kur.)—Large, single salmon-pink flowers.

Satsuki—A macrantha variety. Very desirable. Broad spreading evergreen. Pink flowers large and double.

Schubert (Vuy.)—Light pink.

Sibelius (Vuy.)—Orange red.

Snow (Kur.)—Large, hose-in-hose flowers of purest white.

Sweetbriar (Kur.)—Single pink flowers.

BUXUS SEMPERVIRENS—Often called the American Box because of its general use. Medium grower with slender, pointed, dark green leaves, plant pyramidal when young, broader as it becomes older. XX 4-6 in.\$.25

BUXUS SUFFRUTICOSA (Dwarf English Box)—Compact, slow-growing variety with round leaves. 4 in. \$.30

BERBERIS SARGENTIANA (Sargent Barberry) — Upright, evergreen variety. Beautiful, large, dark, glossy, spiny-toothed green leaves. XX 4-8 in.\$.50

CHAENOMELES (White Flowering Quince)—Similar to the red Flowering Quince but flowers are pure white. XX 10-12 in.\$.50

CISTUS CORBARIENSE (Rock Rose) — Low-growing evergreen shrub with coarse small leaves. Showy wide-open flowers 1¼ inches across with yellow blotch at base of petals. Especially good for rock-garden. Not hardy north. X 6-8 in.\$.50

CISTUS PURPUREUS—Similar to above, with purple flowers 3 inches across, yellow at the base with maroon spots. X 6-8 in.\$.50

CAMELLIA CLEOPATRA — (Description under Broad-leaved Evergreens) XX 6-8 in.\$.50

CAMELLIA ROSEA—(See Broadleaved Evergreens) XX 6-8 in.\$.50

CLEYERA JAPONICA—An excellent, compact-growing medium-sized evergreen with thick, glossy leaves which turn red before falling. Fragrant, creamy white flowers in late spring. Not hardy north. XX 6-8 in.\$.35

EURYA JAPONICA — Lovely evergreen shrub with toothed, shiny green leaves. Small, greenish-white flowers. Not hardy north. XX 6-8 in.\$.35

ELEAGNUS PUNGENS — Fast-growing evergreen shrub with handsome foliage. Leaves are green on top, silver underneath. Inconspicuous flowers are followed by berries. XX 4-6 in.\$.50

ELEAGNUS PUNGENS FRUITLANDI—Similar to above but with larger and broader leaves. XX 4-6 in.\$.50

ILEX CORNUTA FEMINA (Chinese Holly)—Handsomest of all broadleaf evergreens and showiest Holly in the South. Hardy to New Jersey. Large shining red berries amid heavy growth of richest glossy green leaves, quite spiny. XX 6-8 in.\$.50

ILEX ACQUIFOLIUM (English Holly)—Very glossy leaves with large triangular spiny teeth and bright red fruit. XX 6-8 in.\$.50

ILLICIMUM ANISATUM (Anise Tree)—A handsome evergreen with broad, light green leaves which, when bruised, emit an anise fragrance. Very desirable. Thrives in full sun or partial shade where soil is moist. XX 6-8 in.\$.50

JUNIPER CHINENSIS PFITZERIANA — Most widely planted of the spreading Junipers. Wide spreading branches pendant at ends. Foliage a constant grayish-green. XX 6-8 in.\$.50

LAUROCERASUS OFFICINALIS — (See Broadleaved Evergreens) XX 6-8 in.\$.50

LAURUS ZABELIANA (Zabel Laurel)—Grows 6-8 ft. high, wide spreading, and is covered in the spring with large spikes of white, scented flowers. Foliage rich, glossy green little affected by cold or dry weather. Hardier than English or Portugal Laurel. XX 6-8 in.\$.50

LOROPETALUM CHINENSIS—Small, dull foliage and clustered white, sometimes yellowish or greenish, white feathery flowers in spring, somewhat resembling the Witch Hazel. Probably hardy as far north as Washington, D. C. XX 4-6 in.\$.50

PLUMBAGO GRIFFITHI — Lovely low-growing plant with leathery, small leaves of bronzy green color. The flowers are a deep peacock-blue borne in small clusters just above the foliage. Especially good for rock gardens or edgings or as ground cover. X 6-8 in.\$.50

PRINSEPIA CHINENSIS — Light gray-brown branches. Leaves which appear in very early spring are bright green. Lovely yellow flowers adorn the stems, followed by red fruit. Very hardy and a fine shrub. X 4-6 in.\$.50

SALIX BABYLONICA (Weeping Willow)—Long pendulous branches, light green foliage. Especially suited for moist situations, but can be grown in well drained soil. XX\$.35

SALIX DISCOLOR (Pussy Willow)—Frequently found in shrub borders. Especially useful as cut flower when the branches are cut in early spring and brought indoors to bloom. Dainty, silvery pink flowers, large catkins, from 1 to 2 inches long. XX\$.35

DAFFODILS — Harbingers of spring. Choice new varieties offered for the first time.

MONTY—An incomparabilis, is a beautifully balanced flower with a yellow perianth and orange-red cup. Winner of the Silver Medal and the Gold Medal Certificate for the best narcissus in the show of The Horticultural Society of New York, Spring 1949. This rare beauty was originated by Col. F. C. Stern of England, who is considered one of the world's foremost horticulturists. Each \$40.00

AMBERLY (Col. Stern)—Was judged first in class for yellow incomparabilis and was given an Award of Merit as Exhibition plant by the Royal Horticultural Society in 1949. It was awarded a medal for the best daffodil in the Royal Horticultural Society Show 1948. Each.....\$25.00

GORING (Col. Stern)—This daffodil is after the style of Fortune, but flowers earlier and is a strong growing plant. Received an Award of Merit after trial at the Royal Horticultural Society Gardens, Wisley, 1949. Each.....\$10.00

BRYHER—Originated by R. V. Favell of England, this daffodil received an Award of Merit by the Massachusetts Horticultural Society and also an Award, a Crystal vase, for the blest bloom in the entire Show, 1949. Each \$40.00
